

2019

MEF

Dipartimento
del Tesoro

Dear investor,

consistently with the practice followed in the past years, the Department of the Treasury is glad to propose you the government securities auction calendar for 2019, that allows you to know how the public debt issuance activity via auction will unfold over the next 12 months. In the calendar you can find the auction announcement dates (in red), auction dates (in blue) and the auction settlement dates (in black). In full continuity with the past, auctions will take place at mid-month and end-of-the-month following a well-established pattern. Non-working days are marked in red, with a lighter nuance in case of national holidays taking place when the TARGET system is open.

This year the graphic design of the calendar is based on a monthly page where you can also find a reminder of the previous and following months together with an image of an old government security issued from the unification of Italy onward, due to their undisputed esthetic value. In order to plan your investment choices, the calendar should be used together with the Guidelines of Public Debt management for 2019, where more details, both in quantitative and qualitative terms, are provided concerning debt management policy, in addition to the Quarterly Issuance Programs and the specific press releases related to each individual auction. All these documents are available on the Public Debt website, www.puplicdebt.it, where you can also find all sort of information related to Italian government debt.

Let me take this opportunity to send you all my best wishes for 2019.

Public Debt Director General

Davide Iacovoni

Treasury Certificate 1995-2002

Floating rate interest

Issue Date 1 April 1995

*Please note that the dates of end-of-the month auction cycle have been updated with respect to those published in the 2018 calendar which also included an anticipation of the month of January 2019.
